FRASERS PROPERTY

Community Development Plan

Mambourin Green

Role and Purpose of this summary

Creating places that people are proud to call home, where they can pursue their aspirations, build connections and lead meaningful lives, lies at the heart of Frasers Property's approach to community development.

Focusing on community connections and wellbeing is our priority, and forms a core part of our social sustainability framework. We do this by working alongside our communities and stakeholders to create and foster genuine connections between people and place, and is being addressed at a community level through the creation of this Community Development Plan for Mambourin Green. This summary shows how Frasers Property's national priorities are linked with local priorities and are generated in consultation with residents and stakeholders at Mambourin Green.

Brand belief

We exist to create belonging because we believe our future depends on how we live life together.

Places for everyone
Collaborate with stakeholders to ensure provision of green spaces, education, transport links, affordability, and other amenity.

Vibrant neighbourhoods
Create events, programs and activities that help activate spaces, introduce community members, and underpin wellbeing.

Sustainable communities
Develop initiatives to mobilise and empower the community so they thrive beyond the project life-cycle.

Mambourin Green priorities for 2027-2029

- Activation of the Residents' Club and first owners corporation committee
- Promotion of walkable links between Mambourin Green and existing Mambourin Town Centre
- Establish & promote First Nations Street Naming & Place-making project
- Develop calendar of activations to welcome new residents
- Establish biodiversity project: The Green Hive Collective
- Introduce community groups to new residents
- Support local schools
