Thermal energy for heating water and cooktop gas pricing information effective 4 August 2023

Price change information

Are these prices fixed	No
------------------------	----

Prices may vary in line with the terms of your Utility Services Agreement and we will provide you with notice of these in accordance with the Utility Services Agreement (which may be included as a statement in your next bill).

Applicable charges	Price (exc. GST)	Price (inc. GST)
Anytime usage for thermal energy for heating water	11.38 dollars per kilolitre	12.51 dollars per kilolitre
Daily supply charge	65.03 cents per day	71.53 cents per day

Daily supply charge: a charge that applies for supplying either cooktop gas or thermal energy for heating water to your supply address for each day of the billing period, regardless of how much you use.

Thermal energy for heating water: a charge that applies for thermal energy used to heat each kilolitre of hot water used at your supply address. This is determined by individually metering the flow of hot water to your supply address. 1 kilolitre equals 1000 litres.

Key contract features

Cooling off period	10 business days
Eligibility	This market offer applies to residential customers who have signed up to receive either thermal energy for heating water or cooktop gas under a Utility Service Agreement with Real Utilities Pty Limited.

----------------	----------------------	---

Real Utilities Pty Limited operates the centralised hot water system. Real Utilities supplies the thermal energy to heat water using the centralised hot water system for each apartment as required, and determines the amount required to heat the water used at the supply address. The cost of the water used at the supply address is separate to the cost of the thermal energy used to produce the hot water used at each apartment.
