Marketing

Effective marketing of your property is an integral part of finding the right tenant. It's important to maximise the marketing reach and frequency to the greatest number of prospective tenants in the shortest possible timeframe, thereby reducing vacancy periods and increasing the likelihood of securing the most suitable tenant for you.

Frasers Property's marketing strategy includes:

- ◆ Listings on high traffic websites such as realestate.com.au and domain.com.au, allowing your property to be viewed online 24 hours a day, 7 days a week
- ◆ Regular 'open for inspection' dates
- ◆ Private appointment viewings when required
- ◆ Emails to our extensive database to notify prospective tenants that a new property has become available
- ◆ Regular feedback on inspections and progress of applications
- ◆ The benefit of Frasers Property's extensive database and market knowledge

Tenancy selection

Securing the most suitable tenant for your property is the key to a trouble-free tenancy. Consistent with our excellent reputation and to ensure you are provided with the most suitably qualified applicants, we require that all applicants demonstrate a capacity to properly service the tenancy with:

- ◆ 100 points of identification
- ◆ Details of past and current employment
- ◆ Rental history

In addition, we also check all prospective tenants to establish the applicant's good character and reliability by obtaining feedback from:

- ◆ Previous landlords/agents
- ◆ Current and previous employers

Our aim is to get the best possible tenant for your investment property and to apply stringent guidelines to minimise the possibility of your tenant falling into arrears or breaching their lease.

Once all of the above is completed, you will be offered the opportunity to make a final, informed decision regarding the prospective tenant prior to Frasers Property offering your property to the chosen applicant.

Bond

Once you have approved a suitable tenant, we will manage the rental bond in accordance with legislative requirements.

Legislation stipulates that the maximum bond payment is equivalent to four week's rent. All bond money is lodged with the Residential Tenancy Authority and held for the duration of the tenancy.

This bond must be paid by the tenant prior to the commencement of the tenancy agreement. Upon completion of the tenancy the bond will only be refunded to the tenant providing rent is up to date and the property undamaged and in a suitable condition.

“

There is nobody more committed than Frasers Property Australia in ensuring our residential communities are maintained to the very best standard..

”

Cameron Leggatt
General Manager, Residential QLD

Tenant sign up appointment

An initial appointment is made with the tenant to discuss the tenant's responsibilities, tenant rights and to ensure all necessary leasing documentation has been signed. A copy of the Tenancy Agreement will then be provided to you and your tenant.

Condition report

Prior to the signing of any Tenancy Agreement, we will carry out a detailed condition report of the property. The report, along with photographs, are agreed upon and signed by the tenant. This report can be provided as evidence should any disputes arise as to the condition of the property during or at the end of the tenancy.

Rent collection

Rent payments are made hassle free for our tenants by way of Direct Electronic Funds Transfer Payment Systems. Each tenant is issued with a registration number which can be used to pay rent directly from their nominated bank account. These systems make it easy for tenants to pay their rent on time and reduce the chances of a tenant falling into arrears.

Disbursement of rental monies

To ensure rental monies are disbursed to you conveniently and quickly, rental statements are produced monthly which show the amount of rent collected and also any charges you may have incurred for the month. The charges include invoices for Council and water rates, Owners Corporation levies, property management fees etc, or any maintenance items that may have been paid on your behalf. An invoice outlining the works will also be attached to your statement.

Rental arrears

In the event of tenants falling into arrears we will instigate the following process and you will be kept informed at every stage:

3 days overdue: a rent reminder notice is sent to the tenant with a follow-up phone call to confirm receipt of the notice.

8 days overdue: a further reminder notice and telephone call is made to the tenant requesting immediate payment. At this stage you will also be informed of the late rent payment.

You will be contacted for instructions to proceed with the issuing of a notice of remedy breach.

Under legislation if the rental falls more than 14 days in arrears we may issue a 'notice to leave'. If payment is not made Tribunal proceedings commence, requiring vacant possession of the property. All Tribunal hearings are held at the Queensland Civil & Administrative Tribunal and we are available to manage this process on your behalf.

Routine inspections

The purpose of the inspection is to:

- ◆ Ensure the property is being maintained
- ◆ Review any maintenance issues
- ◆ Review the current tenancy and rental status

As a landlord you are welcome to attend the inspections. If this is your preference please inform your property manager so a mutually convenient inspection time can be confirmed with the tenant.

After the inspection landlords are supplied with a detailed report covering:

- ◆ General condition of the property and any maintenance issues
- ◆ Recommendations

Smoke alarms

All owners must ensure the smoke alarms in their rental properties are maintained and checked at the commencement and renewal of a lease to satisfy obligations under current legislation.

For me, being authentic is about being able to deliver on what we promise. Service is a critical part of what we do, and so is building trust and great relationships. These are the real keystones of doing a good job in property management.

Catherine Hatzigeorgalis
Property Management

We can offer you a complete range of property management services, all backed by industry-leading expertise and know-how together with a 90 year history in Australia. For total peace of mind and a hassle free investment.

Tara Williams
Customer Experience Manager

End of tenancy

Tenants vacating the property must inform our office in writing. When this occurs we will contact you to discuss re-letting the property.

A final inspection will be carried out by our team. A report is given to you and any issues that arise from the inspection will be dealt with quickly and professionally.

Building and landlord insurance

Whilst most landlords have building insurance, we suggest landlords also consider 'Landlord Protection Insurance'. This additional policy covers internal fixtures and fittings which may not be covered under a building insurance policy. It also covers you from loss of rent due to a tenant defaulting on their tenancy, or malicious damage caused by the tenant.

We are in the business of building relationships for the long term, and we believe the best way to do that is to always give our clients more than they expect.

Jessica Pung
Property Management

Maintenance

Well maintained properties help create a positive relationship with your tenant so that vacancy periods are kept to a minimum and income to its maximum. To achieve this certain maintenance tasks may be required throughout the tenancy.

Our policy is to report directly to you for any repairs required. We monitor and act on all repairs diligently and according to your instructions. However, if you can't be contacted and the repairs are of an urgent nature, we may need to proceed immediately without further notice to you.

Essential services

We will ensure that any warranty maintenance items are attended to by the appropriate tradespersons. We have a network of trusted tradespeople, but if you have preferred tradespeople that you would like us to use for your property then please forward these details to your property manager.

Repairs need to be managed in the following way:

- ◆ Non-urgent repairs (i.e non-essential services) require attention within 14 days of notification
- ◆ Urgent repairs (i.e. essential services) require immediate attention

Essential services include:

- ◆ Burst water service
- ◆ Blocked or broken toilet
- ◆ Serious roof leak
- ◆ Gas leak
- ◆ Dangerous electrical fault
- ◆ Flooding or serious flood damage
- ◆ Serious storm or fire damage; failure or breakdown of the gas, electricity or water supply to the premises
- ◆ Failure or breakdown of hot water, cooking, air conditioning or laundering services
- ◆ Any fault or damage that causes the premises to be unsafe or not secure

We maintain a complete record of all maintenance on your property for your reference. By keeping a full maintenance report we may be able to save you money by not paying for repairs which may be covered under a warranty period.

Repairs carried out on your property can be deducted from rent monies held in our Trust Account on your behalf.

THE DIFFERENCE IS
REAL PEOPLE.◆

At **Frasers Property Management**, we understand the human side of property. It's our greatest asset. Our service focuses on making things simpler and easier for real people, because everything we do is about making a real difference to people's lives and caring deeply about how they will benefit. **The difference is real service.**
